Summary: Current law provides immunity from civil and criminal liability for the detention by specified licensed general acute care hospitals, licensed acute psychiatric hospitals, licensed professional staff at those hospitals, or any physician and surgeon providing emergency medical services in any department of those hospitals if various conditions are met, including that the detained person cannot be safely released from the hospital because, in the opinion of treating staff, the person, as a result of a mental health disorder, presents a danger to himself or herself, or others, or is gravely disabled, as defined. This bill would expand the definition of "gravely disabled" for these purposes to also include a condition in which a person, as a result of a mental health disorder or chronic alcoholism, as applicable, is unable to provide for his or her medical treatment, as specified.

Summary: Current law establishes the Licensed Mental Health Service Provider Education Program within the Health Professions Education Foundation. Current law establishes the Mental Health Practitioner Education Fund in the State Treasury and provides that moneys in that fund are available, upon appropriation, for expenditure by the Office of Statewide Health Planning and Development for purposes of the program. This bill would expand the program to apply to persons eligible under existing law who attain further education in order to practice as psychiatric-mental health nurse practitioners or physician assistants in psychiatric mental health settings, thereby allowing those practitioners to apply for grants under the program for reimbursement of those later-incurred educational loans.
